**G. Action Items**

- 1. Human Dimensions of Agriculture (Education, Extension, Communication, & Innovation) - Doctor of Philosophy, Academic Department Head Richie Roberts**

Dr. Richie Roberts presented a revised proposal for the PhD program, which has been updated to include a data-driven approach and a hybrid online format. The program has two student pathways: full-time students and online professional students. The program focuses on agricultural education, communications, leadership, extension, and government research with a focus on social sciences. The median salary for graduates is around \$82,000. The program has a waitlist of 21 New Mexico residents and strong stakeholder support. There are no additional faculty, library, or facility resources needed. A motion was made by Regent Saucedo and seconded by Regent Olivas to approve the program. The motion passed.

- 2. Applied Artificial Intelligence - Master of Applied Artificial Intelligence (online), Dean Enrico Pontelli**

Dean Enrico Pontelli presented the proposal for the new online master's program, highlighting the increasing demand for AI-trained workers, with 15% of job postings at Sandia and Los Alamos national laboratories requiring AI skills. The program is structured as an "AI Plus X" model, which combines a core AI curriculum with a concentration in a specific discipline (currently sociology, agriculture, or manufacturing and supply chain). The program requires a bachelor's degree and a foundation in mathematics. There is an emphasis on the ethics of AI in the core curriculum. The program is supported by 25 faculty members from various colleges. A motion was made by Regent Olivas and seconded by Regent Saucedo to approve the program. The motion passed.

- 3. Wildlife and Fisheries Ecology - Doctor of Philosophy, Academic Department Head Martha Desmond**

Dr. Martha Desmond and Casey Pregler presented the proposal for a PhD program in this field, noting its importance to New Mexico's outdoor recreation industry. There are no similar programs in New Mexico or the Southwest, which presents a significant opportunity. The program has two pipelines: students with a master's degree (4.5-year average completion) and students with a bachelor's degree (6-year average completion). The department has 9 faculty members and over \$31 million in active grants to support students, with no additional costs needed. A motion was made by Regent Saucedo and seconded by Regent Olivas to approve the program. The motion passed.

- 4. Chemistry Course Fee Requests, Operations Manager Lisa Osborne**

Lisa Osborne and Dr. Shelly Lucetti requested to increase the course fee for two entry-level chemistry courses from \$5 to \$10 per student credit hour, which is an increase from \$20 to \$40 per course. The increase is needed to cover the cost of 100% cotton lab coats and goggles, which are required to meet higher safety standards. A motion was made by Regent Romero and seconded by Regent Olivas to approve the fee request. The motion passed.

**5. Nursing Anesthesiology Program Fee Request, Academic Department Head Alexa Doig**

Dr. Alexa Doig requested to increase the semester-based program fee for the Nurse Anesthesiology Doctor of Nursing Practice program from \$1,000 to \$13,000. The fee increase will ensure students have access to essential resources, including a cadaver-based course, board certification preparation, and specialized equipment. Even with the increase, the program remains one of the most affordable in the nation. Graduating students can expect starting salaries of around \$300,000. A motion was made by Regent Romero and seconded by Regent Olivas to approve the fee request. The motion passed.

**6. Capital Funding Amendment Request, Interim Vice President for Administration and Finance Chris Kinsley**

Interim Vice President Chris Kinsley requested to amend the capital funding request to add a \$15 million demolition project for the Cole Village. This funding, if appropriated, would complete the demolition of phases 3 and 4. A third-party estimate adjusted for inflation confirmed the cost. Regent Romero noted that unforeseen issues, such as asbestos removal and utility line concerns, have contributed to the increased cost. The motion was made by Regent Romero and seconded by Regent Olivas to approve the amendment request. The motion passed.

**H. Informational Items**

**1. None.**

**I. Report from the New Mexico Department of Agriculture to the Regents of New Mexico State University (Board of Agriculture), Deputy Director Les Owen**

Deputy Director Les Owen reported that the red imported fire ant quarantine in Doña Ana County was recently removed, a first for any area in the United States. He highlighted the collaboration between the department and NMSU scientists in achieving this. He also mentioned the success of the New Mexico State Fair and the "Get Your Fix, the Green Chili" campaign, which has promoted New Mexico's agricultural products across the country.

**J. NMSU Academic Report, Interim Provost Lakshmi Reddi**

Interim Provost Lakshmi Reddi presented the academic report, outlining the criteria for reviewing academic programs based on graduation and enrollment numbers. He noted that programs with low numbers will be reviewed to determine if they need assistance with recruitment and retention, or if they should be sunsetted. He showed data on some of the top-performing bachelor's and master's programs with high enrollment and graduation rates.

**K. NMSU System Report, President Valerio Ferme**

President Valerio Ferme gave a brief report, stating that the system is doing well, with enrollments increasing and fall-to-fall retention at its highest point. He concluded that the university is in a financially solid position.

**L. Announcements and Comments, Chairwoman Ammu Devasthali**

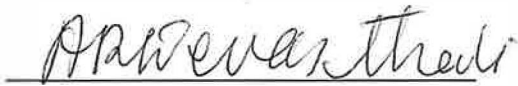

**1. Good News for NMSU!**

Chairwoman Devasthali and Regent Olivas offered congratulations to the organizers of the Gratitude Walk Run, which had about 750 participants this year and has grown into a successful event. Regent Gonzales also commented on the New Mexico State Fair, expressing gratitude for the entire state and the good food.

**M. Adjournment, Chairwoman Ammu Devasthali**

A motion was made by Regent Saucedo to adjourn with a second from Regent Romero. The motion passed, and the meeting adjourned at 5:15 PM.
